Liaison to the mayor and council: Abby Lundy

Attorneys have been in contact between the condo association and the swimming pool commission. We have been advised to use a landscaper to incorporate the requests of the condo association to make this aesthetically pleasing and financially feasible. We cannot move forward with this project until this is rectified. A meeting will be held to make final decisions.

Remarks from Citizens

None at this time.

Club Renovations / Updates / Improvements:

Patty met with the engineer to discuss possibilities of insulation for the pumphouses and other building structures. Long term, we could expand the main building outward to house all pumps and heaters.

We are giving the engineer a deadline of February 16, 2018 for all documents to be in place for requirements/specs of the potential enclosure.

Once we have engineering specs and a settlement with the condo association we can go out to bid. It takes two meetings to get approval from Mayor and Council based on the actual bid. *To be clarified. March 13 & 20 are meetings for council.

Patty was in contact with other facilities who also use the enclosure from the desired manufacturer. All parties had nothing but positive comments.

Snack bar will get new floors in the spring and all cooking equipment will be checked since the flooding. It has new ceiling tiles and is aesthetically pleasing.

We will be seeking prices for the canopy.

Wifi will be updated.

Motion to adjourn: Roe

Seconded: Linda

Closed: 8:41 pm

The next regular scheduled meeting of the Hillsdale Swimming Pool Commission will be held on Wednesday, March 14, 2018.
