

I am pleased to announce that we are bringing Hip to Hillsdale!

Hip is a new commuter bus service that will travel between Hillsdale and mid-town Manhattan on week days, helping you get to work faster and on time in the mornings, and getting you home safely and quickly in the evenings. It is a technology-based service unlike anything available previously to our residents.

When you download the Hip app, you can reserve and pay for your seat in advance, and follow the bus's progress in real time. Hip is also the greener option, allowing you to leave your car at home and still get to and from the city quickly and efficiently.

Even if you now commute taking other means of public transportation, you will find the service and equipment offered by Hip to be unlike what you currently experience. The Hip bus makes limited stops and their drivers take the best routes to get you to your destination on time. You can even charge your phone or computer via the outlets and USB ports on the bus. Hip currently runs a route serving Montvale, Woodcliff Lake, and Washington Township, and two other routes serving towns in the lower Northern Valley and Teaneck/Englewood area. Customer satisfaction rates are extremely high. Our route would service Hillsdale, Westwood, Emerson and Oradell.

The Hillsdale Hip stop is expected to be on Hillsdale Ave at the West Lot, near the RR station, with service anticipated to start March 16.
